Build to connect

Projects for construction of motorways and expressways in Federation of B&H

Corridor Vc

Project Alignment

Corridor Vc is a Pan-European transport corridor which follows European route E73 from Budapest to the port of Ploče (Croatia) via Sarajevo

Bosnia and Herzegovina (B&H) contains the longest section of Corridor Vc with a total length of approximately 335 km

Corridor Vc enjoys strong support from the EU and IFIs

The project has also strong support from all levels of the political spectrum in B&H

High-quality connection between ports on Baltic and Adriatic sea

Goes through the central part of BiH, on the north-south route, along the rivers Bosna and Neretva

85% or 285 kms of the 4. motorway in BiH is 4. in B&H is in Federation of B&H.

Goes through Zenica, Sarajevo and Mostar and most of other economic, cultural and industrial centers in the FBiH covering around 70% of the whole FBiH population relying on its development.

Projects ready for construction

1 Konjic (Ovčari) – Mostar south

Total length of motorway section Konjic - Mostar south is 50 km, and it could be divided in two phases.

Phase 1

Motorway Length: 28 km
Founding source: loan
Model: Finance / Design / Build
Construction cost estimation: 450 mil. €*

LOT 3 Tunnel Prenj
235,5 mil. €* (12 km)

LOT 5 Mostar north - Mostar south
215 mil. €* (16 km)

Available documentation:

- Preliminary design
- Trafic study - in progress
- Geological / geotechnical study - in progress
- Environmental impact assessment (EIA) - in progress
- Feasibility study

Phase 2

Motorway Length: 24,5 km
Founding source: loan
Model: Finance / Design / Build
Construction cost estimation: 329 mil. €*

LOT 1 Ovčari - Konjic
106,5 mil. €* (4 km)

LOT 2 Konjic - Tunnel Prenj
58,5 mil. €* (7,5 km)

LOT 4 Salakovac - Mostar north
164 mil. €* (13 km)

Available documentation:

- Preliminary design
- Trafic study - in progress
- Geological / geotechnical study - in progress
- Environmental impact assessment (EIA) - in progress
- Feasibility study

2 Doboј south (Karuše) Žepče south (Poprikuše)

- Length: 39 km
- Founding source: Concession
- Model: To be defined
- Construction cost estimation: 341 mil. €*
- Founding source: JPP/Concession
- Available Documentation:
 - Preliminary design
 - Environmental permit
 - Feasibility study

3 Expressway Lašva - Travnik

The expressway route is historical roads from the East to the West coming from Serbia through Sarajevo to the Croatia. This expressway is part of TEN-T core Network. Connecting this expressway with the Corridor 5c, central areas of B&H will get the best traffic link with the Central Europe and Adriatic coast on the South.

Lašva - Travnik
Expressway Length: 24 km
Founding source: -
Construction cost estimation: 183 mil. €*

Available Documentation:

- Main design
- Environmental permit
- Feasibility study

4 Tuzla - Žepče

- Motorway Length: 56 km
- Founding source: -----
- Model: Finance / Design / Build
- Construction cost estimation: 520 mil. €*

Available Documentation:

- Preliminary design
- Trafic study
- Geological / geotechnical study
- Environmental impact assessment (EIA)
- Feasibility study

Vision

Our vision is to create road infrastructure of the highest rank, equivalent to the most modern roads in the world.

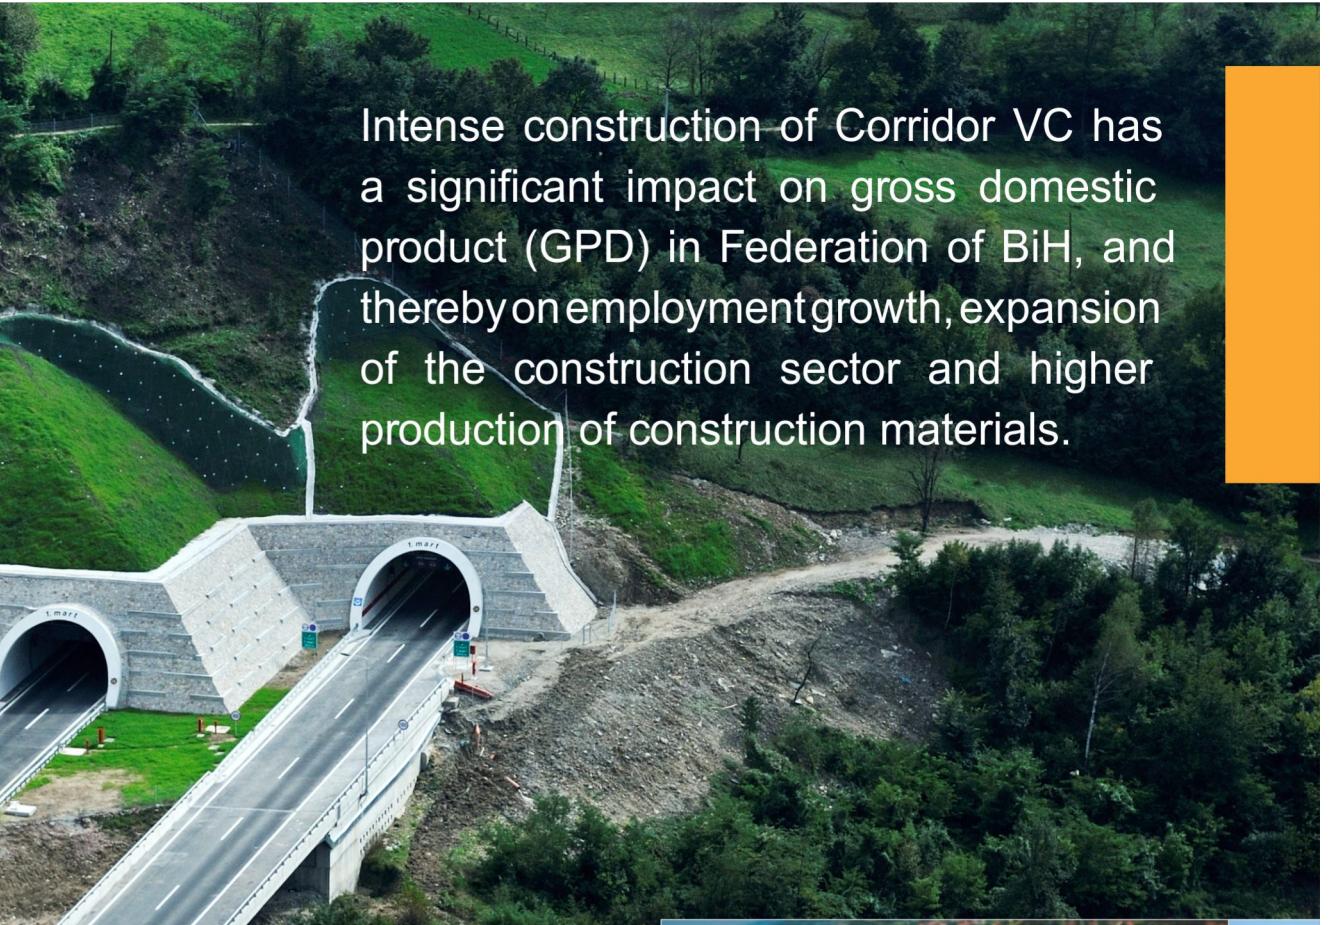

Mission

We build, operate and maintain the road infrastructure of the highest rank, socially and responsibly acting with a particular focus on compliance with environmental and traffic safety.

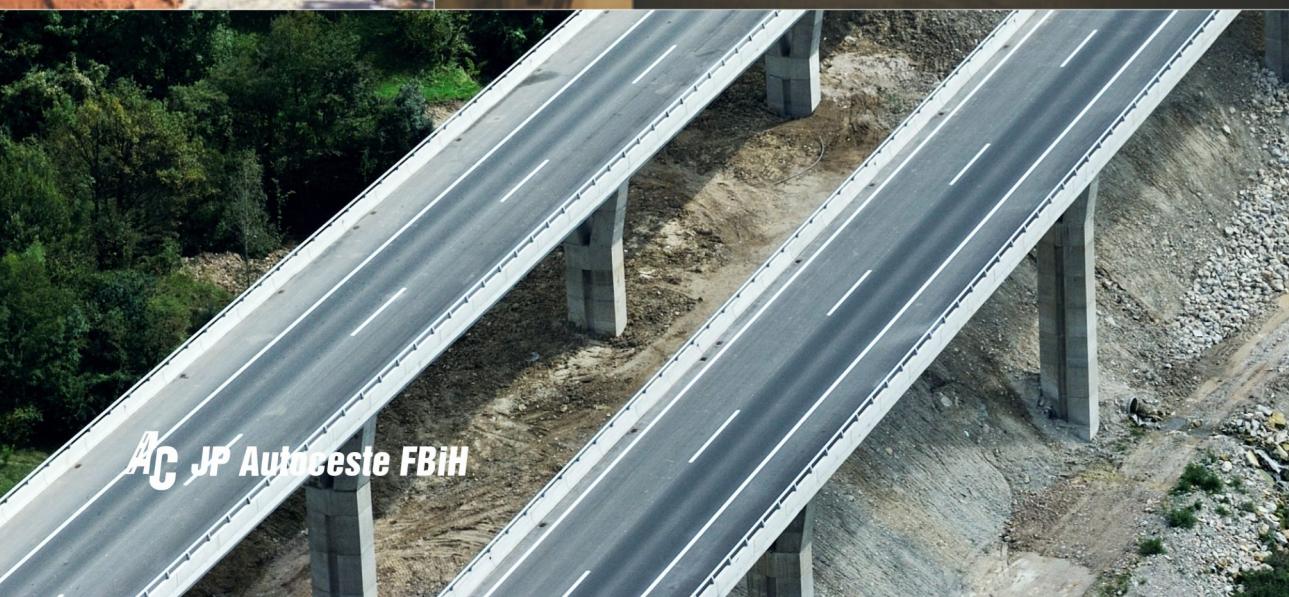

The new investment cycle
for 145 km of motorway on
Corridor Vc and 24,50 km
expressway.

Intense construction of Corridor VC has a significant impact on gross domestic product (GDP) in Federation of BiH, and thereby on employment growth, expansion of the construction sector and higher production of construction materials.

Active sites

Corridor Vc Zenica region

10 km

two active sites one of the most difficult sections

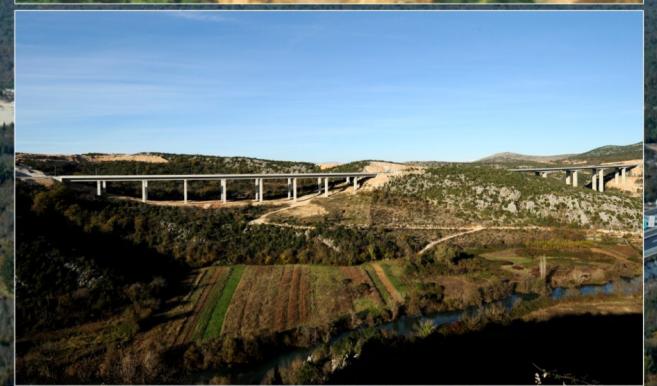

Investment of 140 million EUR w/o VAT

Corridor Vc Nort Section

11 km

Construction of international border crossing Svilaj

Investment of 72 million EUR w/o VAT
