AC JP Autoceste FBiH

A white outline map of Bosnia and Herzegovina is positioned in the upper left of the right page. Overlaid on the map is the logo 'AC JP Autoceste FBiH' in a bold, white, sans-serif font. The background of the right page is a long-exposure photograph of a highway at night, showing light trails from cars and city lights in the distance under a starry sky.

AC JP Autoceste FBiH

THE COMPLETION OF CORRIDOR Vc IS OUR CAPITAL PROJECT

A developed and modern traffic network is one of the most important preconditions for economic growth. Taking into account that motorways are a significant link in a country's development, the construction of Corridor Vc can be seen as an overall social project that will introduce a new zest in the economy and become lifeblood of the entire economy of Bosnia and Herzegovina.

Here in Motorways we have our tasks and we hope to strive towards our set goals with determination and cooperation from all levels of government and international institutions, the goal of entirely connected Bosnia and Herzegovina with the rest of Europe by modern roads that will be the pride of its citizens.

Our top priority is the construction of the most demanding sections from Međugorje to Počitelj and onwards to Mostar, from Zenica South to Zenica North and further on to Žepče Municipality, and from the River Sava near Svilaj to Odžak.

The total investment will go beyond two billion convertible marks thus representing the most ambitious investment venture on Corridor Vc so far.

The construction of demanding structures such as Počitelj Bridge and Prenj Tunnel will elevate the level of construction by another degree in the world of serious civil engineering feats.

We have improved the motorway traffic safety, maintenance and control by constructing the first Centre for Traffic Maintenance and Control in Bosnia and Herzegovina in line with the Directive of the European Commission 2004/54/EC.

In the period to come we will introduce a new billing system aimed at optimising the electronic collection of tolls (ACC service) by creating new packages for ACC services and providing the possibility of loading ACC devices via Internet, SMS, e-banking or other.

PC Motorways FBiH (*original name: JP Autocesta FBiH*), as a socially responsible company, is obliged and clearly determined to invest in the protection of environment which is testified by the introduction of Standard ISO 14001:2004.

We are certain that shorter travel times, safer and more comfortable driving along the new roads will improve the quality of life of our fellow citizens, and contribute to the development of tourism in our country, whereas the faster and easier transport of goods will provide the creation of a better and more prosperous entrepreneurial atmosphere in Bosnia and Herzegovina as well as improved competitiveness in the European markets.

Director | Adnan Terzić, B.Sc.CE

ZAVRŠETAK KORIDORA Vc JE NAŠ KAPITALNI PROJEKAT

Jedan od najvažnijih preduvjeta privrednog razvoja i cjelokupnog napretka društva je razvijena savremena prometna mreža. Uzevši u obzir autoceste kao bitnu sastavnicu razvijenosti države, izgradnju Koridora Vc trebamo smatrati prije svega kao jako važan društveni i ekonomski projekt koji će donijeti novi zamah privredi i postati žilom kucavicom čitave bh. privrede.

Naš prioritet je izgradnja najzahtjevnijih dionica od Međugorja prema Počitelju i dalje prema Mostaru, od Zenice jug prema Zenici sjever i dalje do općine Žepče, te od rijeke Save kod Svilaja do Odžaka.

Ukupna investicija premašit će dvije milijarde KM i to bi trebao biti najambiciozniji investicioni pothvat na Koridoru Vc dosad.

Izgradnjom zahtjevnih objekata kao što su most Počitelj i tunel Prenj podižemo nivo gradnje za još jednu stepenicu u svijetu ozbiljnih građevinskih pothvata.

Unaprijedili smo sigurnost, održavanje i kontrolu prometa na autocesti izgradnjom prvog Centra za održavanje i kontrolu saobraćaja u Bosni i Hercegovini sve u skladu s direktivom Evropske komisije 2004/54/EC.

U narednom periodu uvodimo novi *billing* sistem u cilju optimizacije elektronske naplate cestarine (ACC usluga) kreiranjem novih paketa za ACC usluge i mogućnošću punjenja ACC uređaja putem Interneta, SMS-a, elektronske banke i slično.

Obaveza, ali i jasna opredijeljenost JP Autocesta FBiH kao društveno odgovornog preduzeća, da ulaže u oblast zaštite okoliša verifikovana je kroz uvođenje standarda ISO 14001:2015.

Velika nam je čast što smo prva kompanija u Bosni i Hercegovini i regiji, a iz oblasti cestogradnje prva u svijetu, koja je svoje poslovanje uskladila sa zahtjevima međunarodnog standarda za nabavku ovlaštenog instituta za nabavku i snabdijevanje – Chartered Institute of Procurement and Supply (CIPS). Dobivanjem CIPS-ovog certifikata Preduzeće potvrđuje i osnažuje ugled kako u zemlji tako i u inostranstvu. Sve to vodi unapređenju poslovanja kroz kvalitetnije kontakte preduzeća na međunarodnoj sceni.

Mi u Autocestama imamo svoje zadatke i nadamo se, uz saradnju svih razina vlasti i međunarodnih institucija, da ćemo odlučno krenuti prema svome zacrtanom cilju – potpunom povezivanju Bosne i Hercegovine s ostatkom Evrope najmodernijim putevima koji će biti na ponos svim njenim građanima.

Uvjereni smo da će kraći period putovanja, sigurnija i udobnija vožnja novim prometnicama biti na korist podizanju kvalitete života naših sugrađana, ali i razvoju turizma u našoj zemlji te da će brži i lakši prijevoz robe i dobara omogućiti stvaranje boljih i zdravijih poduzetničkih okolnosti za djelovanje u Bosni i Hercegovini, ali i veću konkurentnost na tržištu Evrope.

Direktor | Adnan Terzić, dipl.ing.

ABOUT US

Public Company Motorways of the Federation of Bosnia and Herzegovina, a limited liability company, was established in line with the Law on Roads of the Federation of Bosnia and Herzegovina. It was registered and initiated its work on 1 January 2011 as a legal successor of the Federal Directorate for Motorway Construction, Management and Maintenance, a body integral to the Ministry of Traffic and Communication of the Federation of Bosnia and Herzegovina.

The fundamental task of the Public Company Motorways FBiH is the construction, management and maintenances of motorways and expressways.

So far we have constructed 102 kilometres of motorway on Corridor Vc through BiH (Svilaj – Odžak, Zenica South – Tarčin and Međugorje – Bijača), and the construction of additional 8 kilometres is currently ongoing.

Corridor Vc is a multi-modular (road and railway) transport corridor connecting Hungary, Croatia and Bosnia and Herzegovina on the route Budapest – Osijek – Sarajevo – Ploče.

The longest part of Corridor Vc goes through Bosnia and Herzegovina in the total length of 335 kilometres. Corridor Vc in BiH consists of four main sections referred to as Lots in Government's documents:

- **Lot 1:** Svilaj on the River Sava (connection to Corridor X) – Doboj South;
- **Lot 2:** Doboj South – Sarajevo South (Tarčin);
- **Lot 3:** Sarajevo South (Tarčin) – Mostar North;
- **Lot 4:** Mostar North – Bijača on the south border with Croatia.

The project has a strong support of the Government of BiH, and it is expected that it will provide better European integration for Bosnia and Herzegovina. The strategy of our company is to realise profitable business and positive financial results that would finally result in a significant impact on the society as whole through developed roads, in addition to the execution of planned jobs, quality staff, good coordination and quality information system.

O NAMA

Javno preduzeće Autoceste Federacije Bosne i Hercegovine, društvo s ograničenom odgovornošću, osnovano je u skladu sa Zakonom o cestama Federacije Bosne i Hercegovine, a registrirano i započelo s radom 1. januara 2011. godine kao pravni nasljednik Federalne direkcije za izgradnju, upravljanje i održavanje autocesta, organa u sastavu Ministarstva prometa i komunikacija Federacije Bosne i Hercegovine.

Osnovni zadatak JP Autoceste FBiH je izgradnja, upravljanje i održavanje autocesta i brzih cesta.

Do sada je izgrađeno 102 kilometra autoceste na Koridoru Vc kroz Bosnu i Hercegovinu (Svilaj – Odžak, Zenica Jug – Tarčin i Međugorje – Bijača), a u toku su radovi za novih 15,2 kilometara (Drivuša-Klopče, Klopče – D.Gračanica i Buna – Počitelj).

Koridor Vc je multimodalni (cestovni i željeznički) transportni koridor koji povezuje Mađarsku, Hrvatsku i Bosnu i Hercegovinu na potezu Budimpešta – Osijek – Sarajevo – Ploče.

Na teritoriji Bosne i Hercegovine nalazi se najduži dio grane Koridora Vc, u ukupnoj dužini od oko 335 kilometara. Koridor Vc u Bosni i Hercegovini uključuje četiri glavne dionice, u Vladinim dokumentima nazvane kao lotovi:

Lot 1: Svilaj na rijeci Savi (veza na Koridor X) – Doboj jug;

Lot 2: Doboj jug – Sarajevo jug (Tarčin);

Lot 3: Sarajevo jug (Tarčin) – Mostar sjever;

Lot 4: Mostar sjever – Bijača na južnoj granici s Hrvatskom.

Projekt ima snažnu potporu Vlade FBiH, a očekuje se da će omogućiti Bosni i Hercegovini bolju integraciju u Evropu. Strategija Preduzeća je da uz izvršavanje planiranih zadataka, kvalitetne kadrove, dobru koordinaciju i kvalitetan informacijski sistem ostvari profitabilno poslovanje i pozitivne finansijske rezultate koji bi u konačnici, kroz razvijene prometnice, ostvarili značajan utjecaj na cijelo društvo.

MANAGEMENT OFFICE

Management Office consists of the director and four executive sector directors:

- Executive Director of the Sector for Legal Affairs,
- Executive Director of the Sector for Economic and Financial Affairs,
- Executive Director of the Sector for Management and Maintenance,
- Executive Director of the Sector for Design and Construction.

In addition to the Director and Executive Directors, the Management Office also nominates a Public Company Secretary in line with the Statute and Company Law. The Management is in charge of work organisation and management. The Director is authorised to represent the public company in line with the laws that govern company business. Executive Directors are in charge of their respective sectors. Each of the sectors has organised services/departments according to their specific needs with the purpose of efficient management and work organisation in the specific sector.

KABINET UPRAVE

Kabinet Uprave čine direktor i četiri izvršna direktora sektora:

- Izvršni direktor Sektora za pravne poslove,
- Izvršni direktor Sektora za ekonomsko-finansijske poslove,
- Izvršni direktor Sektora za upravljanje i održavanje,
- Izvršni direktor Sektora za projektovanje i građenje.

Osim direktora i izvršnih direktora u nivou Kabineta uprave imenuje se i sekretar Javnog preduzeća u skladu sa Statutom i Zakonom o privrednim društvima. Uprava organizira rad i rukovodi poslovanjem. Direktor je ovlašten za zastupanje Javnog preduzeća u skladu sa zakonima kojima se uređuje poslovanje Preduzeća. Izvršni direktori upravljaju sektorima koji su u njihovoj nadležnosti. Svaki od sektora ima organizirane službe/odjele prema potrebi, a u cilju efikasnog upravljanja, odnosno organizacije rada sektora.

SERVICES IN THE MANAGEMENT OFFICE

Each adjoining service to the Management Office has its Head who is in charge of coordinating with the Director of the public company for the purpose of providing operative support to the Management and ensuring efficient performance of the Management Office.

Service for Management Authorities and Protocol organises professional administration jobs during the preparation of management sessions, coordinates with media representatives and organises efficient work of the Protocol with all supporting documents.

Service for Public Procurement prepares the Proposal of the Public Procurement Plan based on the Business Plan for the current year and executes the entire procurement procedure in line with the Law on Public Procurement, from submitting the procurement request to the conclusion of contract with the selected supplier.

Service for International Procedure Procurement coordinates the activities relating the approval of projects by financial institutions, monitors the expenditure of resources and drafts projections of credit funds withdrawal, and develops presentations and project promotions for multilateral financing in cooperation with institutions of the Federation of Bosnia and Herzegovina and Bosnia and Herzegovina.

Service for IT serves as a service for the Management and other company sectors, coordinates all business processes related with communications, organisation and integration of IT resources, and plans the maintenance, expansion and upgrade of all IT resources in the Company.

Service for Standardisation, Quality and Environmental Management establishes procedures for ISO standards, develops the necessary programme solutions for control tasks, plans activities related to quality management, environmental and health protection and protection of work safety, activities and projects within PC Motorways FBiH.

Department for Internal Audit is an independent unit within the Company that submits the annual risk strategy and audit plan to the Audit Board detailing a meticulous overview of risk areas and future audits, and all its duties are in line with the international auditing standards.

SLUŽBE PRI KABINETU UPRAVE

Svaka od pratećih službi Kabineta Uprave ima šefa koji koordinira direktora Javnog preduzeća, a radi operativne podrške Upravi i u svrhu efikasnog rada Kabineta Uprave.

Služba za organe upravljanja i protokol organizira stručno-administrativne poslove u pripremi sjednica organa upravljanja, komunicira s predstavnicima medija i organizira efikasan rad protokola sa svom pratećom dokumentacijom.

Služba za javne nabavke priprema prijedlog Plana javnih nabavki na osnovu Plana poslovanja za tekuću godinu i provodi cjelokupan postupak nabavki u skladu sa Zakonom o javnim nabavkama od podnošenja zahtjeva za nabavku do zaključivanja ugovora s odabranim dobavljačem.

Služba za nabavke po međunarodnim procedurama koordinira aktivnosti na odobravanju projekata od strane finansijskih institucija, vrši monitoring utroška sredstava i sačinjava projekcije povlačenja kreditnih sredstava, izrađuje prezentacije i promocije projekata za multilateralno finansiranje u saradnji s institucijama Federacije Bosne i Hercegovine.

Služba za IT služi kao servis Upravi i ostalim sektorima preduzeća, koordinira sve poslovne procese vezane za komunikaciju, organizaciju i integraciju resursa informacionih tehnologija te planira održavanje, širenje i unaprjeđenje svih IT resursa u preduzeću.

Služba za standardizaciju, kvalitet i okolinsko upravljanje uspostavlja procedure za dobivanje ISO standarda, izrađuje potrebna programska rješenja radi obavljanja poslova kontrole, planira aktivnosti upravljanja kvalitetom, zaštitom okoline, zaštitom zdravlja i sigurnosti ljudi na poslovima, aktivnostima i projektima unutar JP Autoceste FBiH.

Odjel za internu reviziju je nezavisna jedinica unutar Preduzeća koja podnosi godišnju strategiju rizika i plan revizije Odboru za reviziju u kojima je sadržan detaljan prikaz rizičnih područja i revizija koje će biti izvršene, a sve svoje dužnosti obavlja u skladu s međunarodnim revizijskim standardima.

SECTOR FOR LEGAL AFFAIRS

Sector for Legal Affairs consists of services that perform jobs related to general and staff affairs, advocacy, expropriation, and project realisation.

Service for General and Staff Affairs performs professional and administrative jobs related to employment, keeps records in the human resources, develops drafts and proposals of the Company general acts, keeps track of the legal changes in the organisation and performs jobs related to court registration.

Service for Advocacy organises and represents the PC Motorways FBiH before courts and other authorities and keeps record of all court cases from this area.

Service for Property and Legal Affairs deals with land acquisition (expropriation) for the purpose of construction and resolution of property and legal relations including all jobs relating the registration of expropriated land. The work of this service is in line with the decisions of the Company body and other competent bodies relevant for the jobs pertaining to the Sector's scope of work.

Service for Project Realisation Aid prepares and controls the legal bases of the PC Motorways FBiH contracts, cooperates with the competent state, federal, and cantonal institutions in all jobs relating the Sector's scope of work and performs all legal aid jobs relating the project realisation.

SEKTOR ZA PRAVNE POSLOVE

Unutar Sektora za pravne poslove nalaze se službe koje obavljaju opće i kadrovske poslove, poslove zastupanja, eksproprijacije i realizacije projekata.

Služba za opće i kadrovske poslove obavlja stručno-administrativne poslove vezane za radne odnose, vodi evidencije u ljudskim resursima, izrađuje nacрте, prijedloge općih akata Preduzeća, prati zakonske promjene u organiziranju i obavlja poslove sudske registracije.

Služba za poslove zastupanja organizira i zastupa JP Autoceste FBiH pred sudovima i drugim organima te vodi evidencije o svim sudskim predmetima iz ove oblasti.

Služba za imovinsko-pravne poslove provodi postupke eksproprijacije zemljišta za potrebe gradnje i rješavanja imovinsko-pravnih odnosa, uključujući i poslove uknjižbe izuzetog zemljišta. Rad Službe je usklađen s odlukama organa Preduzeća i drugih nadležnih organa bitnih za poslove iz djelokruga rada sektora.

Služba za pomoć u realizaciji projekata priprema i kontrolira zakonske osnove ugovora JP Autoceste FBiH, saraduje s nadležnim državnim, federalnim, kantonalnim institucijama u poslovima iz djelokruga rada sektora i obavlja poslove pravne pomoći u realizaciji projekata.

SECTOR FOR ECONOMIC AND FINANCIAL AFFAIRS

This Sector performs jobs relating analysis and planning, financial jobs and administrative and technical jobs in relation to the Sector's scope of work.

Service for Accounting is competent for all financial operative jobs, salary calculations, monitoring of money flow and development of liquidity plan, as well as records and tracking of all revenue collections.

Service for Finances controls the internal financial documents and operations, performs commercial management tasks, approves procurement procedures for services, goods and works for international projects and submits to the competent authorities the reports, information and other data from the Sector's scope of work.

Service for Plans and Analysis prepares projects, plans, and analyses for international financing in line with the specific requests, participates in proposal development for long-term, midterm and annual plans and programmes and coordinates and monitors the implementation of international projects from the area of road infrastructure in cooperation with the Management of PC Motorways FBiH.

Service for Marketing is in charge of marketing related jobs from the area of toll collection, motorway protection and motorway safety and maintenance.

SEKTOR EKONOMSKO-FINANSIJSKIH POSLOVA

Sektor obavlja poslove analize i planiranja, finansijske poslove i poslove administrativno tehničke naravi koji se odnose na djelokrug Sektora.

Služba za računovodstvene poslove nadležna je za poslove finansijske operative, obračune plata, praćenje novčanih tokova i izrada plana likvidnosti te za evidenciju i praćenje naplata svih vrsta prihoda.

Služba za finansijske poslove kontrolira interne finansijske dokumente i poslovanja, obavlja poslove komercijalnog menadžmenta, odobrava postupke nabavke usluga, roba i radova za međunarodne projekte te dostavlja nadležnim organima izvještaje, informacije i druge podatke iz djelokruga rada Sektora.

Služba za plan i analizu priprema projekte, planove, analize za međunarodno finansiranje u skladu sa specifičnim zahtjevima, sudjeluje u izradi prijedloga dugoročnih, srednjoročnih i godišnjih planova i programa te koordinira i prati implementaciju međunarodnih projekata iz oblasti cestovne infrastrukture u saradnji s Upravom JP Autoceste FBiH.

Služba za marketing zadužena je za obavljanje poslova marketinga iz oblasti naplate cestarine, zaštite autoceste i oblasti sigurnosti i održavanja autoceste.

SECTOR FOR MOTORWAY MANAGEMENT AND MAINTENANCE

Services under this Sector are in charge of motorway maintenance, toll collection and traffic surveillance and safety.

Service for Maintenance prepares plans and programmes for the protection of motorways and motorways traffic safety, carries out technical preparations for projects of extraordinary maintenance of motorways and structures financed by international loans, participates in technical surveillance of section and motorway construction from the aspect of maintenance, organises and prepares measures for landscaping and utilisation of ecologically suitable technologies for section and structures maintenance.

Service for Toll Payment Collection enables the functioning of toll collection system (human resources, IT), monitors the technological development and innovations in toll collection and participates in the preparation of technical elements for all public procurement procedures pertaining the Sector's scope of work. The Toll Payment Collection Control develops analysis and reports for periodical, monthly and annual state of the toll collection performance and performs an ongoing toll collection control process.

Service for Traffic Management, Surveillance and Safety keeps track of traffic safety data, determines the car accident patterns and proposes measures to improve traffic safety. The Service takes active participation in all jobs of organisation and coordination of traffic surveillance and management, keeps all necessary records in the area of work safety, fire protection and firefighting prescribed by laws and by-laws.

SEKTOR ZA UPRAVLJANJE I ODRŽAVANJE AUTOCESTE

Službe koje pripadaju ovome sektoru zadužene su za održavanje autocesta, naplatu cestarine te nadzor i sigurnost saobraćaja.

Služba održavanja priprema planove i programe za zaštitu autocesta i sigurnosti saobraćaja na autocestama, obavlja tehničke pripreme za projekte izvanrednog održavanja autocesta i objekata koji se finansiraju putem međunarodnih zajmova, sudjeluje u tehničkim pregledima gradnje dionice i autocesta s aspekta održavanja, organizira i priprema mjere za provedbu uređenja i korištenja ekološko prihvatljivih tehnologija održavanja trase i objekata.

Služba naplate cestarine omogućava funkcioniranje sistema naplate cestarine (ljudski resursi, IT), prati tehnološki razvoj i inovacije u oblasti naplate cestarine te sudjeluje u pripremi tehničkih elemenata za postupak svih javnih nabavki iz djelokruga Sektora. Kontrola naplate cestarine izrađuje analizu i izvještaj periodičnih, mjesečnih i godišnjih stanja o radu naplate cestarine i obavlja stalni proces kontrole naplate cestarine.

Služba upravljanja, nadzora i sigurnosti prometa prati podatke o sigurnosti saobraćaja, utvrđuje uzroke prometnih nezgoda i predlaže mjere za poboljšanje sigurnosti. Služba aktivno sudjeluje u poslovima organizacije i koordinacije nadzora i upravljanja prometa na autocesti, vodi sve potrebne evidencije iz oblasti zaštite na radu, zaštite od požara i vatrogastva propisane zakonskim i podzakonskim aktima.

SEKTOR ZA PROJEKTOVANJE I GRAĐENJE

Sektor za projektovanje i građenje obavlja poslove građenja, pribavljanja dokumentacije i poslove ekspertize i kvaliteta.

Služba za građenje priprema program razvoja, tj. projektovanja i građenja cestovne infrastrukture, prati i kontrolira realizaciju po ugovorima za izgradnju autoceste i objekata, priprema tendersku dokumentaciju za izvođenje radova na izgradnji autoceste i koordinira rad s drugim sektorima i Federalnim ministarstvom prometa i Federalnim ministarstvom prostornog uređenja i drugim institucijama uključenim u fazi građenja.

Služba za ekspertize i kvalitet priprema projektne zadatke za izradu projektne dokumentacije projekata odobrenih u Planu poslovanja JP Autoceste FBiH, osigurava materijale za institucije FBiH nadležne za donošenje tehničkih i drugih propisa iz oblasti projektovanja i građenja, vodi evidencije o realizaciji ugovora na izradi projektne dokumentacije.

Služba za dokumentaciju pribavlja saglasnosti nadležnih organa i organizacija u postupku pribavljanja urbanističke saglasnosti i odobrenja za građenje, priprema prijedloge za povjeravanje poslova odgovarajućim preduzećima za usluge izrade studije i projekta autoceste i brzih cesta i objekata u postupku javne nabavke.

SECTOR FOR DESIGN AND CONSTRUCTION

Sector for Design and Construction performs jobs of construction, obtains documents and engages in tasks relating expertise and quality.

Service for Construction prepares the development programme, i.e., design and construction of road infrastructure, monitors and controls the realisation of contracts for the construction of motorways and structures, prepares tender documents for the execution of motorway construction works and coordinates with other sectors and the Federal Ministry of Traffic, Federal Ministry of Spatial Planning and other institutions engaged in the construction phase.

Service for Expertise and Quality prepares ToRs for the execution of project documents for the projects approved in the Business Plan of the PC Motorways FBiH, secures materials for the FBiH institutions competent for the adoption of technical and other regulations from the area of design and constructions, keeps records on the realisation of contracts for the execution of project documentation.

Service for Documentation obtains approvals from competent authorities and organisations in the process of obtaining urban permits and construction approvals, prepares proposals for assigning works to appropriate companies for the development services of studies and projects for motorways, expressways and structures in the public procurement procedure.
