Contract Award Notice

Tender/Contract Reference No: 7536462: Support with Project Implementation and Management of E&S Issues (Poprikuse-Nemila section)

Scope Of Contract: The construction of the motorway section from Poprikuse to Nemila will be carried out within the following contract:

Contract no. JPAC 990-B99-18: Poprikuse - Nemila in total length of 5,5 km will be financed from the loan agreement signed with EBRD and EIB

The subject of this Contract award notice are Consulting services for technical assistance to the PIU of the Public company Motorways of the Federation of Bosnia and Herzegovina Ltd. Mostar for the project on Corridor Vc, section Poprikuse-Nemila, Contract no. JPAC 989-E507-18 which shall be funded from the proceeds of the EBRD and EIB loan as well.

The FIDIC Conditions of Contract for Plant and Design-Build for Electrical and Mechanical Plant, and for Building and Engineering Work, Designed by the Contractor, First Edition 1999 will be used for the design and civil works contracts.

The overall objective of the management consultant services to the PIU is to ensure professional, efficient and optimal coordination of activities of

parties involved in the Project.

The Consultant will help the PIU, add resources to the organization and give assistance in ensuring that suitable control and organizational systems are put in place to effectively manage, in terms of time and finances, the Project financed by the IFIs. A major goal for the successful realization of this Project is assistance in daily management of the Project under all its segments and in particular claim management, liaison with designers, reviewers, supervising engineers, contractor and responsible representatives of the PIU, risk management, advising on specific technical issues, as well as assistance in cooperation with the IFIs. The Consultant will add resources and expertise to effectively manage a complex Project with many interested parties.

Also, the specific objective of the services is to assist the PIU with contract implementation, administration and supervision to ensure that the program of works is efficiently and quickly implemented and completed in line with contractual conditions and technical description, and to support introduction of contemporary transportation technologies. It will also help in producing more detailed reporting lines to lenders.

The Consultant is expected to play a proactive role in the implementation of the project, to initiate and coordinate all activities among other participants and to facilitate the Employer's decisions in order to achieve the project goals.

Main duties of the Consultant can be summarized as follows:

- to provide the needed technical assistance to the PIU, undertaking the management of the Project in its sections;
- to supervise and monitor the implementation of the Project related contracts;
- to liaise with the counterparts, consultants, contractors and IFIs;
- to prepare Project implementation reports to all stakeholders;
- to prepare the supporting documents necessary to the Employers decisions with respect to the Project management.
